Specyfikacja

- Engine: Scania DC09071A, 248 kW
- loading hopper: 1050 x 650 mm
- inlet opening - jaws: 1100 x 700 mm
- capacity: 190-210 t/h
- vibrating screen: 870 x 3940 mm
- remote control
- magnet
- transport dimensions: 3.40 x 3.00 x 13.9 m

OPIS PRODUKTU

The 2015 **Kleemann MC 110R EVO** jaw crusher is an efficient 43-ton machine with 5,284 operating hours. It is powered by a Scania DC09071A engine with 248 kW. It is equipped with a loading hopper of 1,050 x 650 mm and a jaw opening of 1,100 x 700 mm for efficient material processing. The machine achieves a capacity of 190-210 t/h. In addition, it has a vibrating screen of 870 x 3940 mm, a magnet for metal separation, and remote remote control. The transport dimensions are 3.40 x 3.00 x 13.9 m, which facilitates the machine's transport and mobility.
