OPIS PRODUKTU

The 2019 **Komatsu PC138US-11** crawler excavator, offered by Lupher, has worked 3,066 hours and weighs 14 tons. The machine is equipped with a monobloc boom and a hydraulic quick coupler, increasing its versatility on the construction site. Powered by a 72.6 kW Komatsu SAA4D95LE-7 engine, it provides adequate power for demanding tasks. In addition, the excavator has hydraulics suitable for operating a shear or hammer, as well as a digging bucket, making it ideal for a variety of earthmoving jobs. Equipment includes steel tracks with a width of 700 mm, a rear and side camera for increased safety, a manual lubrication system, and operator amenities such as a radio, heating, air conditioning and work lights for comfort and efficiency.
