OPIS PRODUKTU

The 2019 **Komatsu PC210LC-11** crawler excavator is a sturdy machine weighing 23 tons with 4,106 horsepower. It is equipped with a monobloc boom and a Miller hydraulic quick coupler, making it easy to connect attachments quickly and safely. It is powered by a 123 kW Komatsu SAA6D107E-3 engine. The excavator has hydraulics suitable for operating a shear or hammer and a digging bucket. Stability and traction are provided by steel tracks with 700 mm wide plates. Additional equipment includes a rear and side camera, manual lubrication system, radio, heating, air conditioning and working lights, which contributes to comfort and safety.
