OPIS PRODUKTU

The 2013 **Komatsu PC240LC-10** crawler excavator is a sturdy machine with a weight of 25.5 tons and a mileage of 11,266 hours. It is powered by a 141 kW Komatsu SAA6D107E-2 engine. It is equipped with a monobloc boom and a mechanical quick coupler, which allows for easy replacement of attachments. The machine also has hydraulics suitable for operating a shear or hammer and a digging bucket. Stability and traction are provided by steel tracks with 800 mm wide plates. Tailgate camera, manual lubrication system, radio, heating, air conditioning and work lights add to comfort and safety.
