Specyfikacja

- long reach arm
- Komatsu SAA6D114E-3 194 kW
- hydraulics for ditching bucket/rotary head
- digging bucket
- steel tracks
- insert width 800mm
- rear camera
- manual lubrication
- radio

- heating
- air conditioning
- work light

OPIS PRODUKTU

The 2011 **Komatsu PC350LC-8 (10.4/7.8)** crawler excavator is an efficient 36-ton machine with 11,566 hours of service. It is powered by a 194 kW Komatsu SAA6D114E-3 engine. It is equipped with a long reach arm, which allows it to work at a longer range. The machine has hydraulics suitable for operating a dredge bucket or rotary head, as well as a digging bucket. Stability is provided by steel tracks with 800 mm wide plates. Working comfort is enhanced by a rear-view camera, manual lubrication system, radio, heating, air conditioning and working lights.
