Specyfikacja

- three-piece boom
- mechanical quick release
- Liebherr D934 S A6 105 kW
- shear/hammer hydraulics
- front and rear stabilizers
- Rail track gauge: 1435 mm
- tire size: 10.00-20
- rear camera
- side camera

- central lubrication
- radio
- USB
- air conditioning

OPIS PRODUKTU

The 2011 **Liebherr A900C ZW** two-way excavator is a sturdy machine weighing 25 tons and with 10,190 horsepower. It is powered by a 105 kW Liebherr D934 S A6 engine. It is equipped with a triple-break arm and a mechanical quick coupler, which allows for efficient attachment changes. The machine has hydraulics suitable for operating a shear or hammer. Stability of operation is ensured by front and rear stabilizers and the ability to work on tracks thanks to the 1435 mm track gauge. The excavator is also equipped with 10.00-20 tires, rear and side camera, central lubrication system, radio, USB port and air conditioning, which increases operator comfort and safety.
