OPIS PRODUKTU

The 2011 **Liebherr A900C ZW** two-way excavator is a versatile machine weighing 22.5 tons and with a mileage of 10,212 hours. It is powered by a 105 kW Liebherr D934 S A6 engine. It is equipped with a triple-break arm and a Likufix SWA33 hydraulic quick coupler, which enables quick and efficient attachment changes. The machine has hydraulics suitable for operating a shear or hammer and a Leica GPS (2D) system. Additional features include front and rear stabilizers, 1435 mm rail track, 10.00-20 tires, rear and side camera, central lubrication, radio, USB port and air conditioning for operator comfort and safety.
