OPIS PRODUKTU

The 2012 **Sennebogen 821 (6.3/4.2)** transloader excavator is a powerful 24-ton machine with 10,745 engine hours. It is powered by a 97 kW Cummins QSB 4.5 engine. It is equipped with a 6.3-meter-long arm and a 4.2-meter-long boom, providing a long working range. Front and rear stabilizers guarantee stability during operation. The operator's comfort is enhanced by hydraulic high cab with a guard for better visibility and safety. Additional equipment includes tires in size 10.00-20, rear camera, central lubrication system, radio, air conditioning and working lights, which contributes to comfort and safety at work.
