Specyfikacja

- Volvo D13H engine, 220 kW
- deck scale
- rear camera
- bucket capacity: 4,6 m3
- work light
- tire size: 26.5 R25
- air conditioning
- central lubrication

OPIS PRODUKTU

The 2011 **Volvo L150G** wheel loader is an efficient machine with a weight of 26.1 tons and a mileage of 12,652 hours. It is powered by a Volvo D13H engine with 220 kW of power, which ensures high work efficiency. The machine is equipped with a bucket with a capacity of 4.6 m³, which allows efficient handling of large quantities of material. Operator comfort and safety are enhanced by an on-board scale, rear view camera, central lubrication system, air conditioning and work lights. The machine's stability is ensured by its 26.5 R25 tires, which are suitable for demanding conditions.
