OPIS PRODUKTU

The 2011 **Volvo L180G** wheel loader is a sturdy 29.7-ton machine with 13,855 hours of service. It is powered by a 245 kW Volvo D13H engine, which ensures high productivity and reliable operation. It is equipped with a bucket with a capacity of 5.2 m³, which allows for efficient handling of large quantities of material. Stability and grip are guaranteed by tires of 26.5 R25 size. Comfort and work safety are enhanced by on-board scales, a rear camera, air conditioning, work lights and a central lubrication system, allowing comfortable and safe work in all conditions.
